Mern Stack Developer

Backend & infrastructure · \$10/hr · Open To Offers

Kochi, Kerala, India · github.com/adhilek19 · www.linkedin.com/in/adhil-ek-8b5aa4384

SKILLS

Type script, Next, JavaScript, Node.js, Express.js, MongoDB, React.js, Html, Css

ABOUT

MERN Stack Developer focused on building scalable web applications and reliable backend systems. Experienced with Node.js, Express.js, MongoDB, React.js, REST APIs, authentication, and deployment. Looking for opportunities to build real-world products and grow as a full-stack developer

EXPERIENCE

MERN Stack Developer · Bridgeon Solutions LLP

Aug 2025 – Present

Kerala, India · internship

Working as a MERN Stack Developer Intern, building and maintaining full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Developed REST APIs, implemented authentication and backend features, integrated third-party services, fixed bugs, and worked on frontend and backend deployment. Collaborated with the development team to build scalable and user-focused web solutions while continuously improving my full-stack development skills.

PROJECTS

SahaYatri – RideShare Lite

saha-yatri-p95g.onrender.com

React.js · Node.js · Express.js · MongoDB · JavaScript · REST API · JWT

A full-stack ride-sharing application that allows users to create, find, and manage shared rides. Built the backend with Node.js, Express.js, and MongoDB, including REST APIs, authentication, and ride management features. Focused on building a reliable backend architecture and connecting it with the frontend for a smooth user experience.
