

Akshay Singh

Frontend Developer

Frontend Development | React.js | JavaScript | Next.js | TypeScript · Available

Noida · portfolio-ixm.vercel.app · www.linkedin.com/in/akshaysingh29

SKILLS

ReactJs, NextJs, Javascript, TypeScript, Redux, HTML, CSS, NodeJS

ABOUT

Frontend Developer with 2.5+ years of experience building responsive and scalable web applications using React.js, JavaScript, Next.js, and modern UI libraries. Experienced in API integration, state management, performance optimization, and creating reusable, maintainable components. Currently focused on strengthening my frontend architecture, problem-solving, and modern React development skills.

PROJECTS

ResumeAnalyzer AI

resume-analyzer-ai-lime-nine.vercel.app

React · Node.js · Express · MongoDB · Docker

Developed an end-to-end AI-powered interview preparation platform using React, Node.js, and Express, analyzing resumes and job descriptions to generate personalized interview-readiness reports.

Designed and implemented 8 RESTful API endpoints with JWT authentication, protected routes, cookie-based sessions, request validation, and structured error handling.

Built an automated PDF processing workflow for resume parsing and downloadable report generation, connecting frontend workflows with backend processing services.

Containerized the application with Docker and deployed it on Vercel, establishing a consistent development-to-production workflow and simplifying deployment management.
