

Ankur Mishra

Senior Frontend developer

Available

[linkedin.com/in/ankurmishra32](https://www.linkedin.com/in/ankurmishra32)

SKILLS

React, Angular, Typescript

PROJECTS

Talk to the dead poc

github.com/ankurmishra32/talk-to-the-dead-poc

Next.js 16 · React 19 · TypeScript · Firebase Auth + Firestore · Ollama (llama3.2) · SSE streaming

Next.js + Firebase + local Ollama LLM. Persona chat with streaming responses, per-user auth scoping, server-side prompt assembly, and a guided onboarding form. The interesting parts aren't the LLM call — they're the prompt-injection discipline, the per-user memory boundary, and the "this is a simulation, not a real person" framing that lets the product ship responsibly.
