Yangon, Myanmar · www.webdevport.site · www.linkedin.com/in/aung-myint-myat-hein-b87b55406

SKILLS

JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS, Supabase, PostgreSQL, REST APIs, Git, GitHub, Vercel

ABOUT

I'm a Web Developer and the founder of WebDevPort, where I build responsive business websites, e-commerce platforms, and custom web applications.

I work with React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Supabase/PostgreSQL, REST APIs, Git/GitHub, and Vercel.

My experience includes building e-commerce platforms, inventory management systems, invoice applications, booking systems, admin dashboards, API integrations, and bilingual business websites.

I enjoy turning business requirements into practical, reliable digital solutions and handling projects from planning and development through testing, deployment, and ongoing support.
