SKILLS

Skills React, Next.js, TypeScript, JavaScript, Node.js, FastAPI, Python, MongoDB, PostgreSQL, Firebase, Tailwind CSS, REST APIs, Docker, Git, SQL, AI Integration

ABOUT

I'm a Full Stack Engineer specializing in building scalable, AI-powered web applications using React, Next.js, TypeScript, Node.js, and FastAPI. I have professional experience developing production-ready features, designing REST APIs, optimizing application performance, and integrating third-party services for healthcare and analytics platforms.

I enjoy solving complex technical problems, improving existing systems, and building maintainable software with modern engineering practices. I regularly use AI-assisted development tools such as Claude, ChatGPT, Cursor, and GitHub Copilot to accelerate development while ensuring code quality and reliability.

I'm currently seeking remote opportunities where I can contribute to building high-quality web applications, SaaS products, automation systems, and AI-powered solutions.

EXPERIENCE

Full Stack engineer · Oak3

Jul 2025 – Present

Remote · contract

EDUCATION

Batangas State University · Bachelors, Computer Science

Aug 2021 – Jul 2025
