

Yash Karanjule

Full-Stack Web Developer | React, Next.js, Node.js & PostgreSQL

Full-Stack Web Application Development · \$15/hr · Available

India · dualsparkstudio.com · www.linkedin.com/in/dualspark-studio-a50757363

SKILLS

React, Next.js, TypeScript, JavaScript, Node.js, Express.js, PostgreSQL, Prisma, REST APIs, Tailwind CSS

ABOUT

Full-stack web developer focused on building reliable, scalable web applications and business platforms. I work across frontend, backend, databases and APIs, with an emphasis on clean architecture, responsive UI and maintainable code. I'm comfortable taking features from requirements through development, testing and deployment, and can also work alongside existing teams.

EXPERIENCE

Full Stack Developer · DualSpark Studio

Feb 2025 – Present

Remote · full time

Build and maintain full-stack web applications using React, Next.js, Node.js, TypeScript and PostgreSQL. Experienced in developing responsive interfaces, REST APIs, admin dashboards, booking systems, e-commerce platforms and database-driven applications from development through deployment.

EDUCATION

Abasaheb Garware College · MSC Cs, Computer Science

Aug 2023 – Jun 2025

Pune, Maharashtra, India

Studied Computer Science with a focus on software development, web technologies, databases, and full-stack application development.

PROJECTS

Resort Booking & Management System

resortbookingsystem.netlify.app

Next.js · React · TypeScript · Node.js · Express.js · PostgreSQL · Prisma · Razorpay · REST API

Full-stack resort booking platform with customer booking flows, availability management, payment integration, authentication, and an admin dashboard for managing reservations, properties and booking data. Built the application across frontend, backend, database and deployment.

Restaurant QR Ordering & Management System

github.com/DualSparkStudio/125_QR_Menu_Ordering_System.git

Next.js · React · TypeScript · Node.js · Express.js · PostgreSQL · Prisma · REST API · Tailwind CSS

Web-based restaurant ordering platform allowing customers to browse menus and place orders through QR codes, with an admin interface for managing menu items and orders. Built with a responsive frontend, backend APIs and database integration.

Lead Hunter – B2B Lead Intelligence Platform

Next.js · React · TypeScript · Node.js · Express.js · PostgreSQL · Prisma · Redis · Python · FastAPI · REST APIs

Full-stack B2B lead intelligence platform with user authentication, lead management, admin workflows, database-driven dashboards, API integrations and token-based lead claiming. Built the frontend, backend, database layer and AI service as a complete web application
