

Ashish Kumar

Full-Stack Developer | React, Node.js, TypeScript, PostgreSQL

Full-Stack Development · 20 USD/hr · Available · remote, full time, contract, freelance, part time · available immediately

Chhattisgarh, India · ashishportfolio.aigateway.in · www.linkedin.com/in/ashishkumar1854 · kariger.aigateway.in · seller.phoneo.in

SKILLS

React.js, Next.js, TypeScript, JavaScript, Node.js, Express.js, PostgreSQL, REST APIs, Docker, AWS EC2, MongoDB, Git

LANGUAGES

English (professional), Hindi (native)

ABOUT

Full-Stack Developer with 1 year of production experience building and shipping SaaS applications using React.js, Node.js, TypeScript, PostgreSQL, Docker, and AWS EC2. I have built multi-tenant applications, REST APIs, role-based access control, database-driven workflows, and production deployments. I focus on clean implementation, reliable APIs, responsive interfaces, and end-to-end feature delivery.

EXPERIENCE

Product Engineer (Full stack) · Phoneo

Feb 2026 – Jul 2026

Bhilai · full time

Built and maintained production SaaS applications using React.js, Next.js, Node.js, and REST APIs. Developed Phoneo's public marketing platform that contributed to onboarding 4,300 mobile shops across 100 cities, integrated lead capture and demo scheduling workflows, and reduced manual sales outreach by 60%. Later worked on the core SaaS platform, delivering multi-tenant features, RBAC, repair workflows, inventory, billing, and production deployments using Docker, GitHub Actions, Nginx, and AWS EC2.

Full Stack Developer · Botivate Services LLP

Aug 2026 – Present

Raipur ,India · full time

Developed and maintained the Botivate HR System backend using TypeScript, Node.js, Express, PostgreSQL (Supabase), and Drizzle ORM. Built employee and attendance management APIs, database workflows, and biometric attendance synchronization with the BioTime API. Implemented automated background synchronization to fetch and update missing attendance records, with an 8-hour cron-based sync cycle.

EDUCATION

Rungta College Of Engineering And Technology · B tech, Information technology

Aug 2022 – Apr 2026

India

Pursued B.Tech in Information Technology with coursework in Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, Data Science, and AI/ML. Worked on startup development through the college Incubation Center, taking a product from idea to multiple full-stack release cycles for early users. Actively participated in national-level hackathons, including NCIIPC-AICTE Pentathlon 2025 and CIH 2.0, gaining practical experience in problem-solving, innovation, teamwork, and building technology-driven solutions.

PROJECTS

KarigarHQ — Multi-Tenant Repair ERP SaaS

kariger.aigateway.in

React.js · Node.js · Express.js · PostgreSQL · Prisma ORM · Redis · Docker · JWT · AWS EC2 · Tailwind CSS

Built a multi-tenant Repair ERP SaaS for managing complete repair-shop operations. Designed 4-tier RBAC with branch-level data isolation, covering customer intake, repair tickets, diagnosis, estimates, parts consumption, billing, payments, and handover. Implemented inventory management with automatic stock deduction, vendor management, profit calculation, invoice generation, and immutable audit logs. Secured the platform with JWT authentication, role-based authorization, and tenant-aware API validation, with 20 integration tests covering critical workflows and data isolation.

Phoneo — Mobile Retailer SaaS Platform

seller.phoneo.in

React.js · Next.js · Node.js · REST APIs · PostgreSQL · Docker · GitHub Actions · Nginx · AWS EC2

Built and maintained Phoneo's production SaaS platform for mobile retailers, supporting retailer onboarding and business operations. Developed frontend features using React.js and Next.js, integrated backend REST APIs, and worked on lead capture and demo scheduling workflows. The platform contributed to onboarding 4,300 mobile shops across 100 cities in India.
