ABOUT

Full Stack Developer focused on building modern, scalable web applications with React, TypeScript, Node.js, Express, and MongoDB. I enjoy turning ideas into practical products, building clean APIs, authentication systems, dashboards, and responsive user experiences. I'm looking for junior/entry-level opportunities where I can contribute, learn fast, and grow with a strong engineering team.

PROJECTS

Real Estate Website

luxurydwell.vercel.app

React · TypeScript · Vite · Tailwind CSS · Node.js · Express.js · MongoDB · REST API

Full-stack real estate platform for browsing, searching, and viewing properties. I built responsive property pages, property search and filtering, authentication, and dedicated interfaces for tenants, agents, and admins. The project focuses on a clean, modern user experience and practical property-management functionality.
