

Sachin Negi

Full Stack Engineer (MERN & Next.js) | Specializing in Scalable Backend Architecture

Full Stack Web Development (MERN Stack) · \$20/hr · Available

Delhi, India · sachin-negi-portfolio.netlify.app · www.linkedin.com/in/sachin-negi-54aaba222

SKILLS

JavaScript, TypeScript, Node.js, Express.js, React.js, Next.js, MongoDB, PostgreSQL, REST APIs, Docker

ABOUT

I am a Full Stack Engineer with 2.5 years of professional experience building scalable, production-ready web applications from scratch. I specialize in the MERN stack and Next.js, with a heavy focus on designing robust backend architectures, optimizing complex databases, and integrating modern AI workflows. From building enterprise-grade medical SaaS platforms (CodeNucleus) to high-traffic web directories (Jan Seva Help), I take complete ownership of the product lifecycle from backend controllers to responsive UI.

PROJECTS

Samvaad Live

samvaad-live.netlify.app

MERN

A real-time chat application with a bold, comic-book aesthetic. Features instant messaging via Socket.IO, typing indicators, read receipts, text search, message editing/deletion, emoji reactions, pinned messages, and browser-native voice note recording.
