

Sivaram Charan

Full Stack Developer (MERN) | B.Tech AI Graduate | Remote-Ready Software Engineer

Full Stack Development / MERN Stack · \$0/hr · Available

Rajahmundry, Andhra Pradesh, India · sivaramcharan-portfolio.vercel.app · www.linkedin.com/in/siva-ram-charan-934590317

SKILLS

JavaScript, React.js, Next.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication, Role-Based Access Control, MVC, HTML5, CSS3, Tailwind CSS, Git, GitHub, Python, TypeScript

ABOUT

Full Stack Developer with hands-on experience building, securing, and deploying production web applications using the MERN stack. Experienced in developing responsive React applications, RESTful APIs with Node.js and Express.js, MongoDB database integration, JWT authentication, and role-based access control. Built and deployed a live client-facing construction company website and developed full-stack food ordering and travel planning platforms. Comfortable owning features from requirements through deployment and working independently in remote, asynchronous environments.

EXPERIENCE

Full Stack Development Intern · Cognifyz Technologies

Sep 2025 – Oct 2025

Remote · internship

Built and shipped full-stack features using React.js, Node.js, Express.js, and MongoDB, following MVC design patterns. Collaborated remotely with the engineering team and delivered features independently through async workflows and code review.

Web Development Intern · Internshala

Aug 2024 – Sep 2024

Remote · internship

Built and maintained 3+ responsive, cross-browser-compatible websites using HTML5, CSS3, JavaScript, and MongoDB. Worked across frontend and backend tasks while optimizing assets and improving page-load performance.

EDUCATION

Teerthanker Mahaveer University · B.Tech, Artificial Intelligence

Aug 2022 – Jun 2026

Uttar Pradesh ,India

PROJECTS

Construction Company Website — Client Project

[Repo/Live link: http://ekaminfra.in](http://ekaminfra.in)

HTML5 · CSS3 · JavaScript · Responsive Web Design

Designed, developed, and deployed a production-ready business website for a real construction company. Owned the project end-to-end from client requirements through deployment and post-launch support, with responsive layouts across mobile, tablet, and desktop.

Food Ordering Web Application

github.com/SivaRam6461/Online-Food-Ordering-Web-Application

MongoDB · Express.js · React.js · Node.js · JWT · MVC · REST APIs

Built an end-to-end MERN food ordering platform supporting 100+ menu items, dynamic cart management, and a complete order workflow. Implemented JWT authentication across 4 API route groups and developed 8+ RESTful APIs using MVC architecture.

Travel Planner

github.com/SivaRam6461/Travel-Planner

MongoDB · Express.js · React.js · Node.js · JWT · RBAC · REST APIs

Developed a full-stack travel planning platform with destination browsing, trip planning, bookings, and reviews. Implemented JWT authentication with role-based access control and built 6+ RESTful APIs for destinations, trips, bookings, reviews, and user management.
