ABOUT

I have over 10 years of experience in the technology industry, including 6 years specializing in frontend development. I'm currently exploring new opportunities and am available to join immediately.

To give you a sense of my work, here are a few live projects I've built:

PROJECTS

GoTravel - Travel Booking Web Application

github.com/upasana-dev-1088/go-travel.git

React · JavaScript · HTML · CSS · SCSS

GoTravel is a responsive, modern travel booking platform offering a seamless experience for discovering, planning, and managing your dream vacations. It allows users to explore tours, add trips to a cart, book tours, and manage bookings with full CRUD functionality.

The app demonstrates modern frontend techniques including state management with React Context, API integration, and responsive design.
